Good evening,

Last night I was approached by two young people saying they had just seen a cat that had just been struck by a car. It was their opinion that the car was travelling too fast.

Sadly, for the owners of the cat it did not survive.

This morning I took the cat to Rosemullion Vets in Falmouth where it's microchip was read. The owners have now been informed.

Regardless that this incident happened in the darkness of night, the two witnesses were quite adamant that the car was travelling too fast. The car did not stop and the witnesses were unable to provide any real description of the car that would identify the driver.

I have long argued that speed of some cars is too high throughout the whole village, not just Antron Hill. There have been several incidents and near misses. IT IS NOT A QUESTION OF 'IF' BUT RATHER 'WHEN' SOMEONE IS KNOCKED DOWN AND INJURED OR WORSE.

I note from the latest issue of Mabe Matters that Mr Christopher Cole has set dealing with the issue of traffic his main aim for this year. I would gladly like to help Mr Cole achieve this ambition.

Kind regards
